

## Thiele Integral Poly Sealer

### Features

- Helps ensure small footprint for machine by eliminating external sealer
- Eliminates bag jam that often occurs with handoffs to external sealing products
- Servo-driven top and bottom belt system for positive bag control
- Advanced parameter electronics adjustable by recipe through HMI

# Thiele Integral Poly Sealer

The Thiele Integral Poly Sealer offers unprecedented speed and reliability. At speeds in excess of 150 feet per minute, you're guaranteed to increase your productivity.

The Integral Poly Sealer is integrated directly into either Thiele's OmniStar Bagger or UltraStar Bagger.

This innovation lets you seal poly bags or zipper top bags at speeds of over 30 bags per minute.

UltraStar Layout

OmniStar Layout

## Specifications

### Production Speed

Up to 20 bags per minute with OmniStar  
Up to 35 bags per minute with UltraStar

### Dimensions

Length	3 ft. 7 in. (1092.2 mm)
Width	15 in. (381 mm)
Height	10 in. (254 mm)

### Shipping Weight

Shipped installed on bagger

### Electrical Requirements

Power supplied by bagger

### Air Requirements

Air supplied by bagger
